In this project, we will be building a chatbot using Watson assistant. This chat contains the following capabilities:

Login to the IBM Account
Create Watson Assistant Services and Launch the Service
Create Intents, Entities and Dialogs as per the requirements of the Movie Ticket BOT.

Intents:

Greetings

Book Tickets

Enquiry

Movies

Entities:

greetings

booktickets

email

enquiry

movieslist

payment

rate

Dialogs:

Its lists out the Movies available in a Mall.

The Bot Will show different show timings

When a movie is selected, the bot will show the availability of tickets and their respective prices.

The bot will also book the tickets.
